

News Release

Arcplace AG welcomes its 100th client and closes a successful fiscal year 2009

New Managed Services for Backup and Archiving receives a positive market reception

Zurich, April 7th 2010

Despite a difficult economic environment, Arcplace AG closed the most successful fiscal year since the company's foundation. The Swiss specialist Arcplace is renowned for its innovative scanning, digital archiving and backup solutions. The company won numerous accounts in 2009, saw a significant growth in sales and launched new Managed Services which received very positive feedback from the market.

Arcplace could realise a 33% growth of sales in the fiscal year 2009 compared to 2008. Today more than 100 organisations belong to the client base of the Swiss company including clients from markets such as Financial Services, Chemical Industry, Manufacturing, Retail, IT and Telecommunication, Business Consulting, Public Sector, Pharmaceutical and Food and Beverage. Arcplace's solution portfolio is suited for small and mid-size companies as well as for large enterprises.

The positive business development enables Arcplace to invest in the development of new solutions and to expand its services portfolio. The new Online Backup Service, a managed service for data protection and recovery, is one of Arcplace's latest offerings. The new service took off very positively, as the dangers of data loss cause more and more companies to start looking into enhancing or replacing their existing backup and restore solutions.

Arcplace's client references of the last fiscal year include:

- Managed Email Archiving for 'ground handling' specialist Swissport
- Online Backup for property foundation PWG of the City of Zurich
- Online Backup for Swiss watch manufacturer CORUM
- Scanning and archiving for AKAD Höhere Fachschule Bank und Finanz
- Document and Email Archiving for Rotronic
- Online Backup for IW Internet Werbe AG
- Digital Image Archive for Gemeinde Horgen

"2009 was a very exciting and successful year for Arcplace. Despite the difficult economic situation Arcplace was able to continue the strong growth rate and was able to successfully complete numerous exciting new projects," says Robbert Spierings, Managing Director, Arcplace AG. "We are pleased to see that in addition to our new clients a good number of our existing clients have expanded their existing solutions."

Arcplace AG

Arcplace AG is a Swiss provider of Digital Archiving and Backup solutions for the enterprise market. By combining state-of-the-art technology with innovative delivery models, such as Online, Cloud and Managed Services, Arcplace is able to offer companies of all sizes high-end solutions at attractive conditions. Arcplace's goal is to build solutions that improve efficiency, minimize risks and reduce overall IT costs. Alongside its solutions, Arcplace offers specialized consulting services to help organizations in all the phases of a project.
